

THE ART OF ARTIFICIAL **TURF** MAINTENANCE

FIFA QUALITY CONCEPT FOR FOOTBALL TURF

A lack of maintenance will lead to discomfort and frustration for players because of:-

- ⚽ Faster movement of the ball
- ⚽ Uneven roll of the ball
- ⚽ Variable bounce of the ball
- ⚽ Run on a hard surface
- ⚽ Poor grip of the surface

General care & maintenance instruction

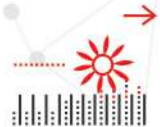

It has long been claimed that artificial surfaces are maintenance-free. This is not only a myth, but a dangerous concept to embrace. The need to maintain a football turf field is fundamental for reasons of aesthetics, safety, playing performance and longevity.

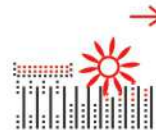

ROUTINE MAINTENANCE

**Inspection
Of Lines / Seams**

**Top Cleaning
Of The Surface**
